# A LETTER TO PARENTS

01

**N**ow that you made the decision or are in the process of deciding to send your child schooling abroad. Be rest assured, you have made an excellent decision! Experiencing a different country unleashes a person's potential in unique and unimaginable ways that words sometimes cannot describe. Not only do you escape the boundaries set by your home country, but you also gain unique opportunities and potentialities that are hardly imaginable within Nigeria.

You may have heard stories of people being cheated or manipulated by study-abroad consultants. Not only are we expressly academically qualified (MSc. & PhD in international migration and related qualifications) to guarantee successful applications for admissions and visas, we also have an impeccable record (100% success rate), where our clients follow our procedures. We are in direct partnership with top schools in countries like Ireland, New Zealand, Australia, the United States of America, Canada, the United Kingdom, Germany, Russia and many other European countries. Our company is registered in Ireland and Nigeria. We have ICEF Education Agency Certifications for Canada, the United States, United Kingdom Ireland and other top countries globally.

Based on experience, we recognise how difficult it may sometimes be for students to navigate life in a foreign country. We created the guardianship service for this reason. There is the famous saying, "train your child so that he may give you rest". We designed our guardianship to provide mentorship, supervision and support for your children.

Within this service, we oversee the holistic development of your child as per your instructions. We make sure that your child makes meaningful associations and adventures solely within the boundaries of your moral ethics. We definitely will be enlisting your help in taking care of your child as we understand that no one knows them or loves them better than you do.

Should you have any questions or want further information, we would be more than glad to listen to them and have a chat with you. You can reach us on:

## WHY SEND YOUR CHILD FOR SECONDARY EDUCATION ABROAD?

02

The world is evolving, and so is education. Our children are a part of this change. New careers are being discovered daily, with unique businesses and products created to solve the new demands and problems uncovered by this fast-paced, digital generation. With this evolution has come a level of exposure to information that requires a great character to manage. The goal to raise and educate children with solid identities and identities and skills/knowledge relevant to the times has never been more critical.

Research has also shown that the primary foundations for a person's life are built in their teenage years. Education and character instilled at the secondary level undeniably impact a person's future. Research has also shown that every individual is unique. Educational practice and environment that guarantees success for an individual may set up another to fail; therefore an absolute need for education tailored to individual groups rather than a fixed system.

Our partners are top schools in the United Kingdom, Ireland, Canada, the USA, and other leading countries that have restructured and redefined their education process to accommodate the dynamic education needs

Our partner schools have created an education system focused on assessing individual students before making a learning system best for them. While some schools may emphasize an area above others, the general theme adopted by these schools caters for a child's character development alongside academic education tailored to the needs and demands of this age.

By placing your child in these schools, you guarantee they have access to an environment, facilities and an education that sets them up for success. Exposure to foreign education early ensures cultural immersion and a seamless transition to tertiary education and other benefits. Our partner schools take responsibility for your child's success and seize the initiative to help them secure places in top universities.

Our partner schools abroad will help your children unearth and polish their potential, build character and acquire skills relevant to this generation, There is the added advantage that your children will be exposed to more scholarship opportunities being already present in the system. You also get to make huge savings on their future university tuition as they may be considered local residents as opposed to international students.

This brochure contains information about some of our partner schools and the schooling options available. We can help you identify the school perfect for your child's development and place them there.

Do you have more questions or want to get started? Get in touch with us.

# THE DIFFERENT SCHOOLING OPTIONS

03

## Online

If you do not want to let your children out of your immediate care, as a result of the changes COVID brought into the world, online schooling has now become a strong option. This means that with our help you can set up a classroom or even have your child attend school via our own virtual class room setup. That way your child benefits from a modern curriculum, a complete education and hands-on care and supervision from you.

## Home-Stay.

This option allows for a guardian to be chosen for your child depending on your interests. The homeschooling option allows your child to stay with a family just like yours, who carefully supervise the child's growth and development; academically, socially and morally. The added benefit of the home schooling option is that your child gets that personal touch family touch that the child may otherwise miss. Guardians also help your child settle in better into the new system and culture, providing them guidance to help them excel in their new institutions.

## Boarding

The boarding option is the most common and familiar option where the students are provided accomodation, meals and facilities for their all round development. Facilities vary from school to school but with many schools providing meal options allowing for you to choose 2 meals or 3 meals as your child may require. This option helps children develop social skills and relationships with peers which will prove vital to their growth and future.

## OUR STORY

I have experienced firsthand the dark side of international migration. I was once a victim of poor migration choices based on wrong information. I got migration advice from armchair consultants; so-called experts who do not have any migration experience themselves. I ended up in a vicious cycle of moving from country to country, getting stuck, and never quite being able to settle. Over this period I witnessed people fall into depression, some even lost their lives, all because they were poorly informed and directed by unqualified consultants.

This experience birthed the zeal in me to understand the processes and dynamics of migration. I vowed to understand the dynamics of migration and use the knowledge gained to support and guide people who want to migrate through the process of migration. I vowed never to allow anyone I come across to go through the pain, frustration and uncertainty I went through.

This determination drove me to study for a Masters in Contemporary Migration and

**DR. NIYI KOLAWOLE**  
*Solid-Link Co-founder*

## *As told by our co-founders*

Diaspora Studies at the University College Cork, Ireland. This masters programme gave me deep insight into the dynamics and intricacies of International Migration. Then I proceeded to study for a doctoral degree in Social Science, specialising in International Migration and Integration. When completing my doctoral degree, I got hands-on experience and access to the latest information on international migration. I also became a lecturer at the university, teaching Migration, Nationalism, Citizenship and Integration.

My experience as a migrant, my academic knowledge of international migration and a burning desire to help meant that my wife and I began informally providing migration advice and educational guidance to many Africans in Africa and those residents abroad. Our immense successes in this informal exercise generated many referrals from the people we helped. We experienced a considerable increase in migration counselling requests and educational guidance locally (in Ireland) and from home (Nigeria). Seeing the desperate need for skilled Educational consultants, albeit being initially reluctant, we launched Solid-Link Consulting.

What we do is beyond educational consulting; we save lives and make dreams come true.

**L**aunching out in a new country should not be a survival race, but it could be when people are poorly informed about the system. Having once moved to a new country, I recognise all of the struggles

associated with young people moving to a new country. As a result, I could not bear to see young people moving to a new country, struggling to survive as I did when I migrated to Ireland. It is this burden that birthed a unique service at Solid-Link; Pastoral Care.

Through our pastoral care service, we provide mentorship to our clients, equipping them with information and resources tailored to helping them achieve their unique dreams. Our Pastoral Care Service helps young people make the right decisions about accommodation, work-study opportunities, and managing finances. Our offerings ensure they stay connected to their loved ones and make new connections with people of similar interests, backgrounds, and dreams. Hence, our pastoral care service guarantees the holistic development of our clients in terms of migration, studying, and eventual integration into the social, economic and political landscapes of their destination countries.

As a mother, I know how it must feel for parents to watch their children struggle from afar without being able to help. We launched Solid-Link to help young people migrate and masterfully navigate the system. We now provide all of the lessons and information we learned the hard way as part of the foundation for our service.

**MRS REMI KOLAWOLE**  
*Solid-Link Co-founder*

# WHAT WE DO

*Making the world a better place through educational consulting*

There is no changing the world without changing people. Sometimes studying abroad is the very first step to making your dreams come true. Our founders and many of our clients have experienced this unprecedented change in their own lives. Studying abroad is so much more than mastering a craft or acquiring a qualification. There is something about visiting a new country and exposure to a different culture that births a new perception.

On the flipside, studying abroad based on the wrong information has resulted in the dream of many being crushed. At Solid-Link, we tailored our processes towards identifying the goals and objectives of our clients then use this information to provide a strategy that guarantees success. As part of our process, we help our clients identify the country, university and course that provides a clear pathway to their dreams.

The central vision of Solid-Link Consulting is to help young people with dreams of experiencing a new country realise that dream seamlessly. We know through research and experiences that education is one of the best and easiest ways to gain access and settle down in a developed country. Beyond securing admission and making successful visa applications, we make it our responsibility to help people transition from being students to residents of their new countries if they choose to.

“

*Making the world  
a better place  
through educational  
consulting*

# HOW WE DO IT

## 1. CAREER GUIDANCE

At SolidLink, we guide our students through making and implementing informed educational and occupational choices by giving them unbiased advice. Our tailored professional guidance helps clients acquire the knowledge, information, skills, and experience necessary to identify career options and narrow them down to make the best career decision and study destination. This decision then results in their social, financial and emotional well-being throughout.

## 2. SCHOOL APPLICATION

After a parent has chosen a secondary school/college and country for their child, the next step is to apply to the school. Completing an application is one of the most critical stages in the process of study abroad. We bring our expertise and experience to assist students in submitting the best possible applications and having the highest chance of gaining admission into their dream school.

...how we do it

### 5. MONEY MANAGEMENT

We help students and their families manage their funds. Whether managing allowances or making sure you have money when you need it, we work with families to ensure your kids are never stuck.

### 3. VISA SUPPORT

Different countries have different visa requirements. Our deep knowledge of migration and international migration systems gives our clients expert support while applying for study visas. We make this process easy for students, helping them through the entire process, from application to receipt of the visa. Our record in this regard is impeccable.

### 4. GUARDIANSHIP

Our students are like family, and we are here to support them in every way. Our Guardianship service focuses on student success coaching and combines academic support, pastoral support, career planning, accountability, and life skills mentoring.

We offer expert support on arrival with immigration registration, bank account opening, accommodation advice, academic support – study skills and exam preparation, well-being and mental health, money management, personal safety, goal setting, career planning, and more!

# HOW WE DO IT

## 6. EDUCATION COUNSELLING

We provide expert assistance and guidance to students in making the right choices about their studies, be it their educational plans, career aspirations, choice of the activities, and the selection of school that aligns with their interests and preferences.

## 7. PRE-DEPARTURE BRIEFING

Our focus is increasingly on pre-departure briefings, including mock visa interviews and tips regarding adjusting to their destination countries culturally, socially and academically.

## 8. AIRPORT PICKUPS

Arriving in a new country can be stressful, especially after many hours of travel. We arrange stress-free airport pickups for students on arrival. With Solid-Link, there is always a welcoming face to usher students into their new lives.

## FOUNDERS' PROFILE SUMMARY

### Dr Niyi Kolawole

Olaniyi Kolawole was born and raised in Nigeria but has studied, lived and worked in Ireland for nearly 20 years. He is a graduate of University College Cork (UCC), where he completed both his masters in Contemporary Migration and Diaspora Studies and a PhD in Social Science.

He previously worked with the UCC International Education Office to develop the African international students' operation. The role saw him work with students and parents from across the African continent, which gave him valuable experience in how Higher Education institutions and agencies work together.

Besides having extensive knowledge of the Higher Education Sector in Ireland and Nigeria, Olaniyi has a passion for teaching. Presently, in addition to playing a vital part in the operations of Solid-Link Consulting, he lectures at the Centre for Personal and Management Coaching in UCC, Cork, Ireland.

Besides being a dedicated academic with a comprehensive knowledge of both European and Nigerian higher education sectors, he is also a parent and passionate believer in developing the potentials of our youth through quality tertiary education.

### Mrs Remi Kolawole

Remi hails from Ijara-Isin, Kwara state, Nigeria. A thinker and a strategist, Remi is an experienced Software Quality Engineer with several years of experience working on significant projects in multinationals. A graduate of Computer Science and Project Management with expansive experience managing projects and events.

Remi's deepest motive is to bring help and support to her community. She is passionate about seeing young people reach their potential through coaching and mentorship. A community builder, Remi is actively involved in the African community in Cork, Ireland. She is married to Niyi Kolawole, and they live in Cork, Ireland, with their dog and four children.

**Role:** Director & Mentor

**Qualification:** HND in Computer Science, Diploma in Project Management

**Secondary Occupation:** Software Quality Engineer

**Other Affiliations:** Founder Africans Connect Ireland, Coordinator Africa Day Cork(2017-2020)

**Hobbies:** reading, walking, having great conversations and travelling.

# Client TESTIMONIAL

Last year we graduated from TAICO, this year we are living the dream, studying in Ireland. All made possible by Solid-Link. We'd like to say huge thanks to my parents and Solid-Link who we met at the TAICO graduation last year, they made they made it possible to further our studies in

Solid-Link handled everything impeccably, they didn't only give us sound guidance helping us choose the right school and courses to study, but they helped us secure admission and get our student visa with zero issues.

Trust us when we say, if it concerns studying abroad, you can trust Solid-Link 100%

The top left portion of the slide features a stylized graphic of the Statue of Liberty in blue, set against a background of the American flag's stars and stripes. The stripes are red and white, and the stars are white on a blue field.

# STUDY IN USA

## Pros

- Explore Vast Academic Opportunities.
- Access to a wide variety of degrees and study options to students.
- Improve Your Career Opportunities.
- Perfect Your English.
- Gain a Global Perspective.
- Receive World-Class Student Support.

The United State is a large federal republic located in North America between Canada to the north and Mexico, the Gulf of Mexico, and the Caribbean Sea to the south. Federalism is a critical feature of American government and politics.

The USA has the world's largest international student population, with more than 1,000,000 students choosing to broaden their education and life experience in the United States. Nearly 5% of all students enrolled in higher-level education in the USA are international students, and the numbers are growing. From the mid-1950s, when international student enrollment was only reaching 35,000, international education in the USA has come a long way.

The United States has one of the world's finest academic systems, with outstanding programs in virtually all fields. At the undergraduate level, excellent programs exist in traditional disciplines, as well as in professional areas. At the graduate level, students have the opportunity to work directly with some of the finest minds in their field of study, with the chance to become involved with exclusive research and educational opportunities.

# HYDE SCHOOL

GCSE  
Qualifications  
Available

Emphasis on  
Character  
Development

Leadership  
Training

Learning  
Enhancement  
Services

Boarding  
Only

These modern times have highlighted the importance of character development and leadership skills as academic/technical excellence no longer suffices in providing society with extraordinary individuals needed to drive it forward. Hyde School embodies this emphasis on a more wholesome training and development for young people with their detailed approach to developing their student's character and leadership alongside academic excellence. Students are not only assessed academically but are also subject to character evaluation and exercises to test their leadership ability.

Hyde's boarding school campus is located in Bath, Maine.

Tuition & Boarding Fees	\$62,000
International Fees	\$3,000
Health Insurance	\$2,250

## What's Great

Hyde's research highlighted that fundamental to any child's success is support from family so they instituted the Hyde Family Education program, and started to see amazing transformations in both students and families. The curriculum is structured around parent journals for personal reflection, regional groups (where geographically possible) and on-campus programs for the entire family. International families are encouraged to participate by visiting the campus, video-conferencing, and attending.

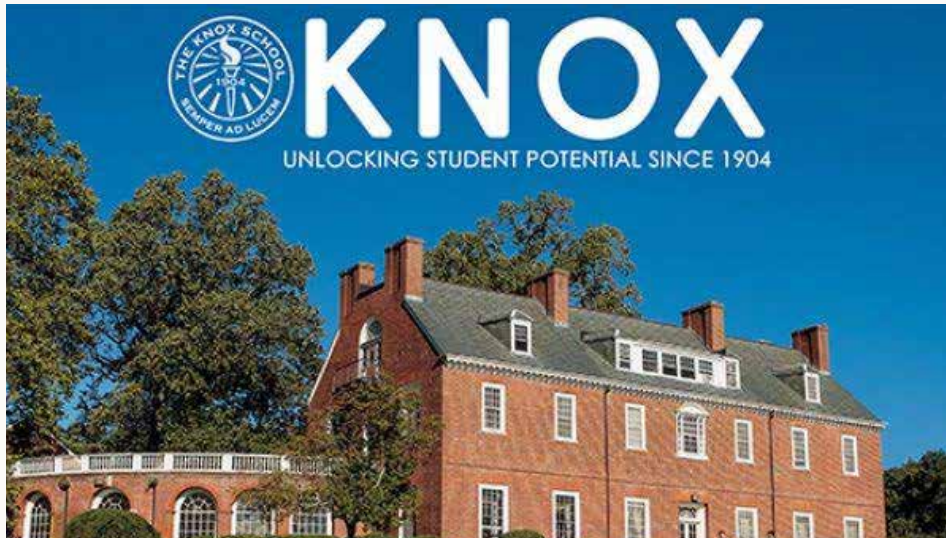

"We all know each other, and we learn how to help each other succeed At Hyde, I've made some of the best friends I've ever had."

— Nate, Alexandria, VA

Hyde School helped my son to be a better student with tremendous self-knowledge and inter-personal skills. What's more, Hyde's Family Program helped our whole family to communicate better and develop stronger relationships that will stay with us for life."

—Rick Chesley

**Homestay Accommodation \*\***  
 For students who will reside in homestay accommodation, other costs that families will need to consider relate to:

- Homestay accommodation - this item will be paid directly to the homestay family - \$350 per week
- Support Provider Fee - this item will be paid directly to the support provider - \$2,400 per year
- Public transport - approximately \$20 per week
- Money for other discretionary spending - approximately \$50 to \$100 per week

# THE KNOX SCHOOL

Sports & Art-inclined Approach

100% Acceptance To Top 4-Year Universities

International Students

Day & Boarding

Knox students are cultivated with the characteristics to be prepared to enter the global community with confidence, a broad world perspective and a wide range of skills to ensure their readiness to enter the next phase of their life journeys.

Students are supported as they explore interest-driven clubs, hands-on service learning, multidisciplinary opportunities in the Visual & Performing Arts, and a nationally-competitive Athletics program. Knox's encouraging community gives students the confidence to take risks and strive for excellence.

- Day and boarding
- Sports & art inclined approach
- Many international students (35%) 15 countries plus
- 100% acceptance to top four-year universities

Southlands School is a non-profit organisation with an emphasis on Christian education. The school's philosophy is based on educating the Whole Child; helping students grow and excel academically, spiritually, physically, mentally, socially and emotionally. As a school they foster critical thinking, communication, creativity, and leadership skills so that all students engage and learn at higher levels, becoming globally-minded disciples of Christ who apply their knowledge to advance God's kingdom.

A fundamental philosophy held by the school is that while learning about technology is essential, learning through the use and practical application of technology is the most effective way to achieve these outcomes. Therefore Southlands Christian implements technology like Google apps, Schoology, and e-Library in order to support, enable, and enrich the learning process for our students.

Christian education produces men and women full of brilliant ideas, impeccable character, and a heart for this nation and the nations beyond. It yields the type of leader that is in passionate pursuit of bringing pleasure to God through loving and leading His people into the fullness of His plan.

**- An excerpt from the president's message**

## What's Great

In addition to their excellent spiritual culture and emphasis, 87% of graduates from Southlands Schools attend Top 100 Universities, including the UC's, Boston College, Carnegie Mellon University, Cornell, Harvard University, NYU, Penn State University, Rutgers University, Stanford University, USC, and Yale. You never have to worry about your children getting adequate attention as they have an average class size of just 16 and a student to teacher ratio of 11 to 1.

# ST. BEDE

Private  
Catholic  
School

Evolving  
STEAM  
Curriculum

100%  
Student  
Acceptance

Supervised  
Monthly  
Excursions

Day &  
Boarding

We are dedicated to developing well-rounded, well-prepared citizens who leave Saint Bede with a lifelong commitment to learning. Through our trilevel academic program, all students are continually challenged to extend their skills and perform to the peak of their abilities.

Annual Tuition Rate	\$6,550
General Extracurricular Fee	\$75
Freshmen	\$450
Juniors	\$450
Sophomores	\$450
Seniors	\$450
Total Boarding Fees	\$450

I am proud to attend Saint Bede because of the family-like atmosphere. I only had three people from my graduating class who chose to attend Saint Bede. From the minute I walked through the door I felt accepted as part of the Saint Bede family. Everyone welcomed me like they had known me all their lives and not once have I felt like an outsider. I also feel that Saint Bede offers the best education around for those who want a challenge. I have no doubt that I made the right choice in choosing Saint Bede.

- Gianna Elias

## STONELEIGH-BURNHAM SCHOOL

International Baccalaureate (IB)

Athletic/Sports Offering

Girls Only

Day & Boarding

Stoneleigh-Burnham is a girls' school in the United States. Research shows connectedness, competence, and confidence are the core elements of self-esteem in girls. Armed with this knowledge, the school's curriculum encourages students to develop essential leadership and self-advocacy skills that will allow them to thrive in college and their careers.

2022-2023 Tuition	Amount
7-Day Boarding (Grades 7-12 & Postgraduate)	\$53,550
5-Day Boarding (Grades 7-12 & Postgraduate)	\$47,150
Day Students (Grades 9-12 & Postgraduate)	\$23,300
Day Students (Grades 7-8)	\$19,150

**What's Great**

Integrated into their curriculum are visual and performing arts, sports and athletics to guarantee that all of her students are well-equipped to discover their best selves and pursue a career in whatever field in the future.

# Client TESTIMONIAL

The whole process of figuring out what course to study, where to study, which college to apply to till the final step of applying for the visa is just so complex and no matter how much research one puts in, professional assistance is required to navigate through it. It is this navigation Solid-Link simplifies for me as a parent and my sons.

With their excellent services, right from helping us decide most suitable courses, college applications and eventual visas, Dr Niyi and his team made sure we were at ease. They handled all the requirements at every stage with extreme professionalism. The process was transparent as there was constant communication between them and us which made us to be at ease all through the process.

The biggest part is the support they gave and still giving to my boys in Ireland. They have been super supportive in looking after them in Ireland.

I would gladly recommend Solid-Link Consulting as the tested and trusted go-to experts when it comes to your study abroad needs.

**Mrs Cynthia Ekechi**  
Happy Parent

# STUDY IN UNITED KINGDOM

## ABOUT

International students see the UK as an ideal place to study, earn a marvellous study experience, and enhance their personal and professional skills. For decades, the UK has been one of the top study choices for international students, providing them with the necessary qualifications to be successful in the global job market and offering them plenty of opportunities to work towards their dream careers.

UK institutions are ranked among the top world universities and they are highly competitive, not only among domestic students but also international ones. Their standards are highly regarded, with experts on many academic topics, and they're generally high in international institution rankings. The British higher education system has been the basis for higher education standards around the world for a long time, with revolutionary teaching styles and mode

## Pros

- Internationally Recognised Universities.
- Quality Education.
- Opportunities offered by the UK Education System.
- Unique Culture.
- Work while studying and Work Permit after studying.
- Scholarships and Financial Support.

## Cons

- International scholarship programmes are especially competitive.

The UK has a maritime climate, so there are plenty of outdoor activities in all seasons and you're never more than 75 miles from the sea! It's also pretty easy to travel to other European countries. The UK is a diverse place and each region has its attractions, so whether you like the buzz of cities, picturesque countryside or fancy seeing a castle or two you'll be catered for!

In addition, the UK is home to 15 national parks, seven natural wonders and a whopping 32 World Heritage sites

# CARDIFF & VALE COLLEGE

'A' Levels

Higher Education

Cambridge

English Language Program

Homestay & Private Accommodation

Cardiff and Vale is the 3rd largest college in the United Kingdom (UK) and the largest in Wales. Just 2 hours from London, the city's culture of tourism has made it a warm and friendly place for international students. Having over 30,000 students is testament to the quality of the school itself, with many of her students going on to attend top universities in the UK.

Pre-university Courses & Pathway Programmes

£10,000/year

Higher Education Programmes

£12,000/year

## What's Great

Cardiff and Vale College provides excellent facilities and have an hands-on approach to make sure students get the very best out of their period of study at the school, academically, mentally and spiritually. The college offers outstanding learning facilities across their sites, including a state-of-the-art City Centre Campus. Cardiff and Vale also uses technology to maximise the student learning experience.

Cardiff city was voted the safest and most affordable city in the United Kingdom. Cardiff is a city of parks with more green space per person than any other UK core city. It's also surrounded by beautiful scenery with a rugged coastline and mountains inland. A top tourist city, Cardiff is also reputable for sports featuring a stadium that has hosting one of the biggest football events; the UEFA Champions League final.

## ST. CLARE'S, OXFORD

International  
Baccalaureate

University  
Foundation

Homestay &  
Private  
Accommodation

St. Clare's Oxford is located in the small university city of Oxford. With over 65 years of experience, the school blends innovative education strategies with more traditional proven methods to form a well balanced approach to educating her students. The school offers weekly activities like visits to the museums and other iconic locations to give practicalities to the topics learned in class.

Oxford is a university city with rich historical traditions and a vibrant modern lifestyle just an hour away from London. Littered with museums and art galleries, Oxford can almost be mistaken for a tourist city, with no shortage of immigrants.

### What's Great

One thing that stands out about St Clare is that it is an educational charity. All of the profit made by the institution is reinvested in its students, staff and infrastructure, a model responsible for their progressive growth since inception.

The school also has a family feel resulting from regular recommendations from its students to family and friends likewise. This provides a conducive atmosphere for learning due to strong connections between students.

# CATS COLLEGE CAMBRIDGE

100% Success Rate In  
Diploma Programme

8/10 Top Universities  
Have Accepted  
CATS Students

Homestay &  
Private  
Accommodation

From teachers who know how to adapt lessons to build confidence in English to house-parents who provide care and concern during your stay, everything at CATS colleges is aimed at helping students succeed and prepare for university study. Unlike traditional boarding schools in the UK, everyone in a CATS class is in the same situation – away from home, needing help to acclimatize, wanting to make new friends and committed to improving their English rapidly.

With small class sizes, tailored teaching, comfortable accommodation and wide range of social and leisure activities, CATS helps International students settle in quickly and you'll soon be making new friends, well on your way to achieving your academic goals.

- CATS students have progressed to all 24 Russell group universities, including Oxford, University of St Andrews, LSE and Imperial College London.
- Individual support on applying to university – from one-to-one guidance to mock interviews.
- Benefit from career preparation in competitive areas like Medicine and Law through our dedicated Key Professions Programme
- 2+ visits per month from university academics, many from the University of Cambridge

Cambridge is a renowned centre of learning and one of the fastest-growing economies in the UK, home to many global organisations, such as Microsoft Research and AstraZeneca. You will be inspired by the grandeur of the prestigious 31 University of Cambridge colleges and all the great names who have passed through it, like Sir Charles Darwin or Sir Isaac Newton.

Modern Cambridge is inspiring too with lots to see and do – from live music and theatre, to festivals and academic events. Cambridge is a well-connected city. You can be in the centre of London in just 50 minutes on the train and London Stansted Airport is a short 30-minute car journey away

■ Catered accommodation fees include breakfast, lunch and an evening meal on weekdays and brunch and supper at the weekend during term time. Day students or self-catered students will need to purchase any meals required. College policy is that all students aged under 18 are catered for.

Ascot is a town in the Royal Borough of Windsor and Maidenhead in Berkshire, England. It is 6 miles (9.7 km) south of Windsor, 4 miles (6.4 km) east of Bracknell and 25 miles (40 km) west of London. It is most notable as the location of Ascot Racecourse, home of the Royal Ascot meeting, and is reportedly the 13th most expensive town in England.

# CATS COLLEGE LONDON

100% International Success Rate in Diploma Programme

8/10 Top Universities Have Accepted CATS Students

Home Stay & Boarding Accommodation

From teachers who know how to adapt lessons to build confidence in English to house-parents who provide care and concern during your stay, everything at CATS colleges is aimed at helping students succeed and prepare for university study. Unlike traditional boarding schools in the UK, everyone in a CATS class is in the same situation – away from home, needing help to acclimatize, wanting to make new friends and committed to improving their English rapidly.

With small class sizes, tailored teaching, comfortable accommodation and wide range of social and leisure activities, CATS helps International students settle in quickly and you'll soon be making new friends, well on your way to achieving your academic goals.

## What's Great

There is no expense spared on the facilities. LVS Ascot has it all. Like a Generation Game conveyor belt, there's an abundance of sporty facilities – indoor swimming pool, large sports hall, full size astro pitch, fitness centre, netball court, four tennis courts and acres of playing fields. In 2020 LVS Ascot students had a GCSE pass rate across all subjects being well above average (97.2% grades 4–9 vs a national average of 78.28%). It's a similar tale for A level students, with a 100% pass rate, nearly half of which were A–A\*.

# ACS INTERNATIONAL SCHOOL

International  
Baccalaureate

No GCSEs

Boarding

With over 1,300 students from over 80 countries, ACS is not just a school, it is an international community. ACS Cobham believes that learning should be one of life's great pleasures, so its teaching is designed to inspire and instil a sense of wonder while maintaining International Baccalaureate standards. Their methods do not encourage a narrow focus on grades; instead tailoring education to help students master their innate talents and abilities as they progress.

Only about 26 miles from London, Surrey is the 12th most populous English county with a lot of local history. Surrey is a rather affluent featuring four horse racing courses and international golf courses.

As a local family we chose ACS Cobham for our son, believing it to have a more future-forward approach to education for today's children. The school really does pinpoint a child's individual talent, helping them to flourish, and the IB programme equips them for their next step in the world.

—Parent

My favourite part of being a boarder at ACS Cobham is that there is always someone there for you – someone to listen and help. Our house parents put a lot of effort into making you feel at home.

—Nia, Grade 12

## What's Unique

ACS Cobham has amazing sport facilities like its showcase basketball/volleyball arena, competition-class 25-metre pool, all-weather floodlit astro turf pitch, Gym and dance studio, Olympic size running track, football and rugby playing fields. This means that students are not only adequately catered for academically but given a platform to thrive in sports and other extra-curricular activities as well.

Brooke House allows pupils to develop their potential to the full, following the principles of High Performance Learning. For the most able student this will mean top grades and a place at one of the country's best universities, but over its 50+ year history Brooke House has taken equal pride in drawing the best out of all students. The mean average class size at Brooke House is eight. Such a staff-pupil ratio promotes a highly personal style of teaching. Teachers can quickly perceive areas of weakness in students and react to them effectively and sensitively.

Brooke House has six new, dedicated science laboratories in which to conduct practical work. The school has 2 computer rooms for academic courses as well as enrichment activities. Art and Design is becoming an increasingly popular subject option and at Brooke House they have a fully equipped Art Studio catering for fine art, graphics and textiles. Pupils benefit from an annual University fair, where university admissions departments come to the college to deliver workshops and outline degree courses to students as well as assistance in applying for university courses from the school's careers advisor.

### What's Great

Academic qualifications and expertise, teaching experience and an ability to relate to young people from different cultural backgrounds are the criteria by which Brooke House teachers are selected. Many of the school's staff are or have been A Level and GCSE examiners, which allows students to benefit from the very latest criteria being adopted by the examination boards.

# *Client* **TESTIMONIAL**

“Solid-Link educational consultants offer you excellent services in regards to your study visa I had all the help I could get from them, hassle free. They offer impeccable services“

**Iroko Oluwole**

Master of Business Administration; Cloud Computing  
Dublin Business School

Located in the north-western fringes of Europe, Ireland's history is long and complicated. The first great tribes to establish themselves on this island were known as the Celts. The customs, myths, and languages of these peoples are still very important to modern-day Irish citizens. While Irish Gaelic is still an official language and adorns, with English, every street and other official sign in public, it is spoken only by a minority, as everyone in Ireland today communicates in English.

Ireland is one of the most popular study-abroad destinations in Europe. Its **institutions** offer first-rate education in a traditional, yet modern setting. Thousands of study programmes at over two dozen schools attract international students from around the world. Ireland is home to some of the finest universities in the world. Some of the key fields Irish universities specialise in include the natural sciences, technology, economics, and the humanities. Across Ireland, there are two dozen universities and institutes of technology to which **children can transition into after graduation.**

## Pros

- Access to World-Class Education.
- Option to take up Part-Time Jobs.
- Low Cost of Education and Living.
- No Language Barriers.
- Ample Job Opportunities.
- Exposure to Cultural Diversity.
- Affordable Transportation Options.

## SEK INTERNATIONAL SCHOOL, DUBLIN

Diverse  
Engaging  
Multicultural  
Activities

Technology  
Driven  
Education

Homestay &  
Boarding

SEK International School Dublin is located between the cities of Bray and Greystones. Greystones was named one of the best cities in the world to live as a family and is only 30 km from Dublin. SEK-Dublin combines architectural tradition with cutting-edge technology, spanning over 250,000sqm of grounds and boasting extensive green areas where our students can enjoy all kinds of sports and outdoor activities while enhancing their academic development.

### What's Great

SEK Dublin is the first and only school authorised by the International Baccalaureate Organisation to teach the Middle Years Programme (12-15 years) and the Diploma Programme (16-19 years) in Ireland, taught fully in English.

SEK-Dublin opened its doors in 1981 and from the beginning based its success on several factors. These factors include a multicultural team of highly trained teachers; the effective use of learning technologies; boarding with carefully selected local host families or in on-campus high quality accommodation; an individualised programme to cover the educational needs of each student; small class sizes and an outstanding programme guaranteed by SEK schools' standards of excellence.

# INSTITUTE OF EDUCATION

50 Years Of Excellence

Top Exam Results

Homestay &  
Private  
Accommodation

For over 50 years The Institute of Education has been providing international students with a globally recognised pathway to top universities in Ireland, the UK and elsewhere. Located in Dublin City Centre, they are one of the largest and most successful private schools in Ireland and send more students to tertiary institutions than any other school in the country.

With a clear focus on results and exam success, the Institute of Education ensures that all students are fully equipped to maximise their performance in a supportive and focused learning environment.

"I am extremely glad that I made the decision to come to the Institute. The school is full of like-minded students who have the drive to succeed and the teachers here are incredible."

— Ray, past pupil

"I did my Leaving Certificate in The Institute of Education and am now studying medicine in the Royal College of Surgeons. The Institute of Education opened many doors for me."

— Muhammad, past pupil

## What's Great

The Institute of Education's digitally equipped classrooms and bright, modern study halls and recreation areas create an exceptional learning environment for international students. State-of-the-art science labs also allow our Medical, Dental, Veterinary Science and Engineering Pathway students to get critical lab experience on campus.

Occupying the northern half of the North American continent, Canada is known for its natural beauty – few nations in the world can boast anything close to its wealth of forests, lakes and mountains – and for its multicultural diversity. The country has official bilingual status, with English and French used concurrently in government and official documents.

Canada has become a booming hub for international students whose dreams include remaining in the country where they complete their studies. No longer an overlooked global destination to earn a degree, Canada also offers a direct path to permanent citizenship - an option many international students seek. Canada has ranked as one of the top ten places to live globally for over twenty years and boasts an education system ranked among the best.

## Pros

- Easier transition into Canadian universities
- A pathway to Canadian permanent residence
- Quality education and training provided by schools
- Amazing facilities provided by schools.
- Most qualifications are globally recognised

## Cons

- Tuition fees are comparably high.
- Living expenses are comparably high

London International Academy is a private school located in London Ontario. The school has very small class sizes with 5 – 15 students per class, ensuring that teachers can pay careful attention to every student. The school's commitment to academic excellence is reflected in their 3rd ranking in the Canadian Mathematic competition, With a STEM Lab room sponsored by the Bank Of Montreal, the school is adequately equipped to deliver excellence on its STEM program.

London, Ontario is a slow-paced and welcoming city in Canada reputable for being friendly towards immigrants and high school students. The city is home to over 10,000 international students from all over the world. Canada has a global reputation for being nondiscriminatory and tolerant towards immigrants and international students alike. This is reflected in the policy which allow international students who graduate in Canada earn a work permit. There are bountiful opportunities for these students to explore after they graduate. The country is currently ranked fourth in the world for Economic Growth.

### What's Great

LIA STEM uses your child's learning strength and challenges it to grow. Every child learns differently! Providing a small group of 10 – 20 student peers, moving beyond just textbook learning and moving towards hands on STEM skills like Computer programming, 3D Design. The students also get to partake in Math and Science Competitions (CSMC), Robotics Competitions (FRC) and Provincial business competition (DECA).

## GREAT LAKES COLLEGE OF TORONTO

OSSD

Pre-University  
Programmes

90%  
Acceptance  
Rate

Homestay &  
Boarding

In a country famed for its low crime rate, friendliness towards immigrants, and educational excellence, Great Lakes brings an extrapersonal touch to education. Serving students from Grade 9-12 with also pre-university courses, what makes Great Lakes stand out from the rest is its bespoke educational plans, created to match the ambitions and learning style of students.

- A-Level
- Full boarding
- Homestay available
- OSSD: The OSSD is recognized by all universities and colleges in the ten province of Canada and virtually every country in the world as one of the academic qualifications accepted for admission purposes.
- Grade 9-12 and Pre-university programmes
- Over 90% of their graduates gained acceptance to higher institutions
- Flexible entry dates: January, April, June, September, & November

### What's Great

The school has guidance counsellors who develop individualized educational plans that are unique for each student. Once these plans are established, students are then given focused and enhanced learning activities, allowing them to utilize their personal learning styles to gain the necessary knowledge and skills for higher levels of education. Each year, a good number of their graduates receive scholarships that reward them for their accomplishments and help pay for their post-secondary education.

Toronto is one of the most culturally diverse cities in the world and is an international hub for finance, communication and cultural life. The GLCT campus is located near downtown Toronto in the North High Park area, which includes High Park, the largest park in Toronto, and is in the middle of a prestigious residential area. The school is close to subway and TTC bus lines, a community library, supermarkets, banks, shopping areas, cultural and entertainment attractions, as well as the University of Toronto, York University and Ryerson University.

The Erindale Academy is a university preparatory academy with an advanced communication network that connects parents, teachers and students online to deliver a great personalized learning experience for each student while catering for the cultural needs of international students.

### The Location

One of the unique selling points of TEA is that it is located within minutes of a university campus which can provide extra motivation for students to excel and extra exposure to improve their mindset. The students also have access to University of Toronto campus resources. Apart from that, TEA is surrounded by a scenic environment with mind-blowing parks, green spaces, picnic areas and hiking routes. This provides a surreal experience for all students who attend TEA.

### What's Great

TEA is driven in its approach to unearthing every potential in its students with careful attention given to counselling, follow-up, and supervision. The school provides one-on-one tutoring to every student requiring attention or who simply desires to get ahead. Beyond the human personnel, students are adequately equipped with the tools and resources that they require to excel.

Convoy International Secondary Academy (CISA) is a private high school located in Essa, Ontario, which enrolls both Canadian and international students from grade 9 to grade 12. Convoy International Secondary Academy envisions offering the best high school education in Ontario centred around the 21st-century demands, such as the development of academic, social, emotional and moral competencies.

CISA's campus is equipped with such amenities as student dormitories, Wi-Fi, cafeteria, sports field, tennis court, gymnasium, library, recreation room, and media centre. It also provides 24-hour residential supervision and security services to provide students with comfortable and safe learning and living environment.

### What's Great

Students are inspired to reach their highest academic potential through an innovative curriculum that encourages them to become effective global citizens, innovators, and leaders. The inclusion of Higher Order Thinking skills helps to deepen their knowledge, enable inquiry, innovation, and creativity, and allows students to become reflective thinkers, problem solvers and confident, effective communicators and leaders.

Shaping the minds of the next generation is at the forefront of everything at Blyth Academy. . With campuses specifically designed to inspire students from grades nine through twelve, and classrooms that offer personalized learning environments, the school provide a unique opportunity for young minds to reach their fullest potential, and ultimately shape the world. With the understanding that success looks different for every student. Blyth Academy has a unique high school structure that tailors education to the individual student – not the other way around.

Students are inspired to reach their highest academic potential through an innovative curriculum that encourages them to become effective global citizens, innovators, and leaders. The inclusion of Higher Order Thinking skills helps to deepen their knowledge, enable inquiry, innovation, and creativity, and allows students to become reflective thinkers, problem solvers and confident, effective communicators and leaders.

Having tried both private and public schools for the duration of my two children's education, by far Blyth Academy offers the student more choice, more guidance and more stability in the programming. The school offers convenient and flexible scheduling, and makes use of this time to help students transition into a university/college level of independent learning. Why wait till your child enters college or university to access this type of learning? The sooner they are independent learners, the more successful they will be in a university or college environment.

—Parent of Grade 11 student

## What's Great

85% of Blyth Academy students receive full or partial entrance scholarships to the post-secondary school of their choice. Not only are students recognized for academics, but many also receive scholarships for athletics, as well. Several prestigious awards of distinction has been granted to its graduating students.

Education

Homestay &  
Boarding

SEK International School Les Alpes is located in the heart of the Alps, in the town of Flumet-St. Nicolas la Chapelle, spanning an area of 15,000m<sup>2</sup>. Its facilities, blending perfectly with its Alpine surroundings, include two large historic buildings with high-quality residential facilities and the most cutting-edge and innovative teaching resources to ensure students' all-round development.

### What's Great

SEK-Les Alpes broadens the educational concept by developing learning experiences for students from 13 to 15 years of age in three languages (French, English and Spanish) in a holistic programme of formal and informal teaching activities. The incorporation of cross-curricula aspects such as developing future entrepreneurs, leaders and young scientists and small class sizes afford an enriching learning experience.

Homestay & Boarding

SEK International School, Catalunya, is located in a quiet and safe residential area spanning 100,000 sqm, including a large expanse of Mediterranean forest. The school is in La Garriga, a picturesque town just 30 minutes from the centre of Barcelona, one of the most cosmopolitan cities in Europe.

We offer international boarding, catering for students from Spain and abroad in modern, comfortable and functional facilities, designed for residents to live together, grow as individuals and develop their personal autonomy thanks to a multicultural environment and a rich offer of complementary activities.

### What's Great

SEK-Catalunya boasts modern facilities and innovative learning spaces and teaches the three International Baccalaureate Programmes. The Middle Years Programme is offered in Spanish and English and the Diploma Programme is offered entirely in English or in both languages. They lead international rankings thanks to our excellent results in Diploma exams.

Homestay &  
Boarding

SEK International School, El Castillo, offers an innovative educational model based on early learning stimulus, talent development, creativity and emotional intelligence. We cater for students from over 40 different nationalities, living and learning in an environment of multicultural exchange in a privileged natural setting just 15 minutes from the centre of Madrid. The school has taught the three International Baccalaureate Programmes for over 40 years, offering the possibility of doing so entirely in English or in a combined English-Spanish bilingual syllabus.

### What's Great

The school boasts first-rate sports facilities and offers international boarders an incomparable environment for the development of the individual, personal growth and personalised pastoral care provided by specialised school staff, in a very safe and secure environment.

In addition, as a sign of her commitment to sport, we offer a high-performance sports programme, the SEK International Sports Academy, that allows athletes to combine their academic studies with the highest levels of sports training. Students on this programme can stay at the boarding house, allowing them to combine their academic enrichment with high performance sports programmes.
